FALL BULBS — FLOWER AND VEGETABLE SEEDS

FOR FALL AND WINTER PLANTING

Cut Flowers and Floral Designs for All Occasions—Wedding, Church and Party Decorations—Expert Service and Up-to-Date Ideas—We are sure we can please you in this department.

SWEET PEAS AND HOW TO GROW THEM

Select your space in the open, where the vines may be trained on a trellis, and dig a trench about two feet wide and eighteen inches deep. Put about three inches of well-rotted barnyard manure in the bottom of the trench, mix a sprinkle of manure and commercial fertilizer with the dirt that has been removed and replace it. Open a trench across the bed about six inches deep and plant one ounce of seed to 15 feet of drill in the bottom of it, covering the seed about one inch. Now fill this last trench with water and soak thoroughly, following with a sprinkle of fine manure to prevent the surface crusting. After the peas are up eight or ten inches begin to draw the dirt to them, gradually filling the planted trench and opening another trench about ten inches from the row through which to water them the

rest of the season. Frequent cultivation is very necessary and after the peas are 12 to 15 inches high a mulch of fine manure should be applied to the entire bed and gradually worked into the soil. Keep them well watered and at blooming time they should be cut each day to insure a long blooming period.

HYACINTHS

FOR OUT DOOR OR POT CULTURE

HYACINTH CULTURE: For winter and spring blooming out of doors, the bulbs should be planted from 3 to 5 inches deep, according to the texture of the soil. The deepest planting is required in light sandy soil. Plant early in the Fall and spade into the ground a good supply of well rotted manure.

FOR POT CULTURE: Prepare the pots so they will drain well and use the best soil possible. Plant the bulbs about one inch below the surface, water thoroughly and put away in a dark cellar or bury them, pot and all, about eight inches below the surface in the garden. Let them stand about six or eight weeks and then bring them into the house a few at a time to have continual blooms throughout the season. During the growth in the house they should be well watered and kept near the light but direct sunlight should be avoided.

HYACINTHS IN GLASSES: A very interesting way to grow Hyacinth bulbs is in a Hyacinth glass made especially for that purpose. Fill the glass with clean water so that the water will touch the base of the bulb, place the glass and bulb in a dark cellar or closet until the roots have made considerable growth, being careful in the meantime to keep the glass filled with water to the base of bulb, then bring to the light and keep in cool place. A little charcoal added to the water will keep it cool and sweet.

EXHIBITION HYACINTHS

GERTRUDE—Dark pink. Most popular bedding variety.
KING OF THE REDS—Brilliant red, large, well formed truss.
GRAN MAITRE—Deep lavender blue, large, compact truss.
KING OF THE BLUES—Rich, dark blue. One of the largest.
L'INNOCENCE—Pure white. Best all purpose white.
30c each, \$1.00 for four, \$3.00 per doz., \$22.00 per hundred.

SELECTED HYACINTHS

GERTRUDE—Rose pink, large, fine compact truss.
LA GRANDESE—Snow white; fine bells; good exhibitor.
LA VICTOIRE—Bright carmine-rose. Very fine spike.
LORD BALFOUR—Lilac-rose, tinged dark violet. Very early.
MARIE—Deep blue; fine bells, excellent spike.
PERLE BRILLIANT—Light blue, tinged lavender. Late.
YELLOW HAMMER—Golden yellow. Splendid early variety.
20c each, \$1.10 for six, \$2.00 for twelve, \$3.00 for fifty, \$15.00 for 100.

DUTCH ROMAN HYACINTHS

Medium size, 16 to 17 centimeters. Excellent for bedding and borders. Red, Pink, White, Light Blue, Dark Blue, and Yellow. 15c each. 85c for six, \$1.50 per dozen, \$5.75 for fifty; \$11.00 for one hundred.

ARIZONA SEED & FLORAL COMPANY 30 NORTH CENTRAL AVE.
PHOENIX, ARIZONA

PLEASE NOTE

The following list of Bulbs and Seeds is our list for planting in Arizona for the Fall season and we wish to call attention to the fact that prices named herein are based on highest quality.

Every experienced planter knows the importance of reliability in seeds, plants, and bulbs and every planter, whether planting much or little, should remember that to succeed much depends on the quality of seeds or bulbs planted.

BUY THE BEST—WE DO

AMARYLLIS

BELLA DONNA—"Bella Donna Lily," blush, delicately shaded with pink or light purple, flowering before the leaves appear; very fragrant and fine for cut flowers, lasting fully a week when cut. Plant in a sunny position, leaving the neck even with the surface of the soil.

Each, 35c; 3 for \$1.00.

ANEMONE

One of the most showy and beautiful flowers; of neat and compact growth, with elegantly cut foliage and the most brilliantly colored blossoms. It requires but little attention. For best effect, plant in masses. **CULTURE**—Anemones require a rich, loamy soil. Soak the roots in water for six hours previous to planting. This causes them to swell and enables one to distinguish the crown which is readily discernible by the fibrous points at the top of the root, the bottom being quite smooth. A sunny place is best. Plant in slightly raised beds from September 15th throughout the Winter season.

CHOICE MIXED—Each, 10c; Dozen, \$1.00.

CALLA LILY

The Calla is one of the best Winter flowering plants for house culture, as it needs little care beyond abundant water and an occasional washing of the leaves to keep them free from dust. The best soil for Callas is a mixture of one-fourth leaf mould and three-fourths good garden soil. Plant the bulb about one inch below the surface of the soil in a 4 or 5-inch pot or whatever size is necessary, owing to the size of the bulb or the number planted. Then place in cellar or dark closet for three or four weeks. When the bulb starts growing bring to the light and be sure to give it plenty of water. Callas do better planted in the Fall months. Also remember that in climates no colder than the Salt River Valley they can be grown successfully out of doors.

WHITE CALLA: Medium Size Bulb—Each, 25c; 6 for \$1.25; doz., \$2.25. Large Size Bulb—Each, 35c; 3 for 95c; 6 for \$1.60; dozen, \$3.00.

ELLIOTIANA

YELLOW CALLA—One of the most attractive flowers grown, suitable for outdoor bedding or for pot culture. The blossom is large and a deep golden yellow. The leaves are spotted white.

Large Size—50c each; \$5.00 per dozen.

CANNA BULBS

NEW VARIETIES WITH LARGER FLOWERS AND MORE OF THEM

In no other flower has there been such a rapid development. For Arizona and New Mexico they are the finest bedding plant we have. Flowers are of great size and of lovely shape, rivaling orchids in outline and coloring. Plant in a warm soil, with plenty of water and in a half shaded location. Mixed colors. Each, 20c; dozen, \$1.75.

CHINESE SACRED LILY

Flowers pure white with a yellow cup. Plant in open ground or in bowls with pebbles. Large size, 15c each; \$1.50 per dozen; \$10.00 for 100.

CROCUS

MAMMOTH FLOWERED NAMED VARIETIES

This old-fashioned bulb is so well known that it needs no description. They are grown extensively in pots and for bordering walks, lawns, etc. When grown in the open plant about two inches apart. The effect is beautiful and they are readily appreciated for their early blooms.

Blue and Purple, White, Striped, Golden Yellow, Mixed—All colors, 5c; 50c per dozen; \$3.00 for 100.

DAFFODILS

Plant two or three bulbs in a five-inch pot and five or six in a seven or eight-inch pot in good soil, put in a cool dark place until sprouts attain a height of two or three inches.

EMPRESS PRIMROSE PERIANTH, Yellow Trumpet.

EMPEROR—Brilliant Golden Yellow.

GOLDEN SPUR—LARGE GOLDEN, Yellow. Very fine.

DOUBLE VON SION—Pure Yellow and Double.

20c each, \$1.00 for five, \$2.00 per dozen.

FREESIAS

Plant the bulbs one to two inches apart and cover to a depth of about two inches. Instead of just single row, place bulbs to make a row three or four inches wide; this will give a wonderful effect.

AMETHYST—Blue, light center.

AURORA—Yellow Orange.

CARMENCITA—Orange Salmon.

GENERAL PERSHING—Lavender Pink.

JUNE MICHELSON—Rose Pink.

OLIVETTE—Bright Carmine Red.

10c each; \$1.00 per dozen; \$6.50 per 100.

GLADIOLUS BULBS

Gladioli should be planted about three inches deep in good soil, preferably in a sunny situation.

MIXED —Very Best.....		.75	5.00

IXIAS—Baby Glads

For planting in solid masses or for outlining the edges of walks in the bulb garden. There are no bulbous plants more effective or more easily grown than these dainty little flowers. The flowers are arranged in spikes on strong wiry stems and are especially useful for cutting.

CULTURE—Plant them three inches apart and two inches deep in any good garden soil. Finest Mixed, each, 10c; dozen, 75c.

JONQUILS

No garden is complete without a few of the old-fashioned Jonquils. They are very fragrant and pure yellow in color. They make a wonderful showing when planted in solid beds and also excellent for borders. Plant about three inches apart and three inches deep in good soil. For pot culture plant about six in a 5-inch bulb pan and 12 in a 7-inch bulb pan. Use good soil with plenty of drainage, water well and bury out of doors or put in cool cellar until sprouted two or three inches high. Each, 10c; dozen, 75c; per 100, \$5.50.

MEXICAN TUBEROSE

Pure white single flowers and are delightfully fragrant; begin blooming in July and continue until frost. Plant in sunny spot. We can supply bulbs from Jan. 1st to June 1st. Each, 15c; \$1.25 per dozen.

NARCISSI

PAPER WHITE NARCISSUS—The most popular Narcissi for growing in the house in pebbles and water, soil or prepared bulb fibre. Clusters of star-like flowers, very fragrant, long stems and will last indefinitely. Each, 15c; 4 for 50c; 100, \$9.50.

POETICUS ORNATUS—This variety of Narcissus blooms very early and profusely. The petals are pure white, while the cup is clear yellow margined with scarlet. It is fragrant, with a rich, spicy odor, and excellent for both inside and outdoor culture. Each, 15c; dozen, \$1.50; 100, \$10.00.

OXALIS

WINTER FLOWERING VARIETY

OXALIS should be planted early to get the best results. When planting outside select a partially shaded spot. For indoor culture they can be planted in pots, hanging baskets and window boxes. The pretty blooms, together with the heavy growth of drooping foliage, makes them very attractive for inside decoration. Our bulbs are of a "sure-to-bloom" quality.

BOWELL—Brilliant Rose—Doz., 75c.

RANUNCULUS

GIANT FRENCH—The Giant French Ranunculus is a semi-double variety but our mixture contains many which are almost real doubles. The Giant French are the most vigorous growers, producing an abundance of bloom for about two months. It is one of our loveliest Spring flowers for cutting.

Soak the roots for two hours and plant the claws downward. Plant six to eight inches apart and cover to a depth of two inches.

GIANT FRENCH MIXED—Large size, each, 10c; 100, \$5.50.

MEDIUM SIZE—Each, 5c; 50c per dozen; \$5.50 per 100.

SPANISH IRIS

Blooms during April and May from bulbs planted in the Fall. Plant two or three inches deep and six inches apart in row.

BRITISH QUEEN—Pure White.

CYANUS—Yellow.

CELESTIAL—Sky Blue.

IMPERATOR—Brilliant Blue.

3 for 40c; \$1.50 per dozen; \$11.00 per 100.

TULIPS

In Arizona, Tulips should be planted to a depth of 5 to 6 inches in heavy soil and 6 to 7 inches in light soil. The object in planting to a greater depth in a mild climate is to retard the top growth, thus giving the bulb time to make root growth.

CLARA BUTTS—Soft Salmon Rose; 3 for 15c; 60c doz.; 100, \$1.50.

EDMEE—Deep Cherry Rose; 3 for 20c; 75c doz.; 100, \$5.50.

FAUST—Blackish Violet; 3 for 35c; \$1.25 dozen; 100, \$8.50.

FEU BRILLANT—Bright Scarlet; 3 for 35c; dozen, \$1.25; 100, \$8.50.

FRONS HALS—Blue; 3 for 30c; dozen, \$1.00; 100, \$6.50.

INGLESCOMBE—Yellow; 3 for 15c; dozen, 60c; 100, \$4.50.

DARWIN—Special Mixed; dozen, 60c; 160, \$4.50.

EARLY DOUBLE FINE MIXED—Dozen, 75c; 100, \$5.50.

ZEPHYRANTHES—CANDIDA

Beautiful white flowers and attractive foliage, making it a very desirable plant for borders and beds. Height about one foot. Long blooming season. Bulbs multiply rapidly. 75c per dozen, \$3.00 for 50, \$5.50 for one hundred.

PLANT A WINTER LAWN

AND BEAUTIFY YOUR HOME SURROUNDINGS

Insist on our perfected strain of Australian Rye Grass Seed. We have a full carload of high germinating quality seed to meet your requirements for this season. You will be assured of A SPLENDID GREEN LAWN by placing your orders with us.

HOW TO PLANT A LAWN

Level the ground carefully, pulverizing all lumps and removing all stones. Enrich with Gromore Fertilizer at the rate of one pound to 20x20 feet and rake it in. Scatter the seed evenly over the surface at the rate of two pounds to 10x10 for American Rye, one pound to 10x20 for Blue Grass and one pound to 500 square feet for Bermuda Grass; then apply a mulch of sand or well-rotted fine manure. Water carefully and regularly, not allowing the surface to dry out until the grass is up. In the Salt River Valley and similar climates, Australian Rye Grass should be planted from September 15 to March 1 and Bermuda Grass during the Summer months.

LAWN GRASSES

If desired sent by Parcel Post, add necessary postage.

AUSTRALIAN RYE GRASS—1 lb., 20c; 10 lbs., \$1.80; 50 lbs., \$7.00; 100 lbs., \$13.00.

WHITE CLOVER—Per lb., 75c; 10 lbs., \$6.50.

BERMUDA GRASS—Per lb., 60c; 10 lbs., \$5.00.

KENTUCKY BLUE GRASS—Per lb., 60c; 10 lbs., \$5.00.

AQUARIUM GRASS SEED

A sprinkling of this grass seed over the top of the bulbs and pebbles will add the finishing touch to your lily bowl, with a soft green mat. Per pkt., 10c.

CHARCOAL

For keeping the water sweet and cool in Paper White and Chinese Lily Bowls. Per package, 10c.

BULB GRIT

1-lb. pkgs., 10c; 2-lb. pkgs., 15c. (Postpaid only when bulbs are ordered).

MOTHER OF PEARL CHIPS

Beautiful little pearls—used for decorating bulb dishes; also very ornamental for fish bowls. 25c per pound. (Postpaid when ordered with bulbs).

PREPARED BULB FIBRE

The most satisfactory way of growing all Spring bulbs for house and table decoration. It is better than soil for bulbs and plants for indoor growing, and can be used in bowls, jardinières, fern dishes, etc., without drainage. By mail, postpaid—1 lb., 25c; 5 lbs., \$1.00; 10 lbs., \$1.85.

LILY BOWLS

Suitable for Chinese Lily or Paper White bulbs, also as a cut flower table decoration when flower stand is used in connection. These bowls are in green finish and are very decorative. 5-inch, 40c; 6-inch, 75c; 8-inch, \$1.10; 10-inch, \$1.75. (Postage or express extra).

HYACINTH GLASSES

Made especially for growing Hyacinths. Bulbs are easily grown in this manner and it is very interesting to watch them grow.

Tall, each, 50c; Dwarf, each, 40c. (Add 10c each when wanted by parcel post).

GROMORE FERTILIZER

NO FILLER—NO BULK—ALL FERTILIZER

BEST MONEY CAN BUY, BEST EARTH CAN PRODUCE

For Lawns, Flowers, Gardens, Shrubs, House Plants, Fields and Orchards. Book FREE Tells Just How.

A 25-lb. bag covers a lawn space of 1200 square feet. Lasts a year or more.

A tablespoonful to a hill of potatoes, tomatoes or ordinary rose bush means abundant flowers, crisp and early vegetables.

A teaspoonful for 6 to 8-inch potted plant. Ferns love it. 2-lb. package, 50c; 25 lbs. in cotton bag, \$3.00, postage extra.

Bone Meal Fertilizer, Blood Meal, Hydrated Lime, Nitrate of Soda, Fish Meal, Gypsum.

INOCULATE YOUR SWEET PEA SEED

McQUEEN'S INOCULATOR FOR SWEET PEAS

Garden size, each, 20c

We also carry McQueen's Inoculator for Garden Peas and Beans, Alfalfa, Sweet Clover, Sour Clover, Vetch, etc.

FLOWER SEEDS
